

# AgileRax™ - v2.0

## Micro Data Center Solution

>> Foundation of Digital Future

Efficiency Prefabricated

# AgileRax™ - v2.0 | Micro Data Center Solutions

Always evolving. Always leading.

As micro data center leader, we continuously innovate and optimize our solutions to provide best-in-class energy efficiency and a wide range of flexible configurations. With our cutting-edge solutions, we offer unparalleled performance and reliability, making us the ultimate choice for your data center infrastructure projects.

## Solution Benefits

### Secured Protection

- IP55 rated IT environment, excellent dust resistance and noise reduction capabilities, Anti-condensation design, ensure quiet, secure and stable operation.
- Smart 3in1 (PIN/Finger/RFID) Door access system, prevent unauthorized entry.
- Real-time equipment status monitoring and alarm, avoid delayed response.

### Energy Efficiency

- Various efficient inverter precision air conditioning options provide energy-saving solutions.
- IP55 rated IT environment, allowing internal deployment of fire system, more cost saving.
- Factory prefab & plug-and-play design enable easy deployment and relocation.

### Smart Monitoring

- Full sensor communication, all-in-one real time monitoring and management center, minimizing downtime.
- Support remote centralized management and constant monitoring, enhancing operational efficiency and flexibility.
- Upgraded software interface, more suitable for operation insights.

### High Flexibility

- LEGO-style modular design allows for easy customization and expansion.
- Factory prefab and plug-and-play design enable easy deployment and relocation, reducing setup time and effort.

Efficiency Prefabricated

# AgileRax™ - v2.0 | Micro Data Center Solutions

Always evolving. Always leading.

As micro data center leader, we continuously exploring the best combinations between the various modules to optimize our Micro Data Centers and provide the most effective configuration. Each module is a crucial and unique component that plays a vital role in achieving our goals.

Efficiency Prefabricated

# AgileRax™ - v2.0 | Micro Data Center Solutions

The efficiency matters, for a sustainable future.

## Optimized PUE

Energy efficiency has always been a top priority in our data center design and operations. Our cutting-edge energy-saving technologies and equipment and continually optimized energy management strategy, resulting in a substantial reduction in the PUE value.

## Efficient Thermal Management System

Maximizing efficiency with various inverter precision air conditioning with IP55 rated built-in cold-hot aisle sealed cabinet.

## Efficient Deployment & Relocation

Factory prefabrication, high integration, plug-and-play design enables quick delivery and deployment.

Lego style modular design, easy to expansion step by step.

Efficiency Prefabricated

# AgileRax™ - v2.0 | Micro Data Center Solutions

The unparalleled protections, from inside to outside.

From internal power systems to external physical monitoring, we continuously innovate and optimize our Micro Data Center to provide the most comprehensive protection, making us the safest choice for your data management.

- **Power Supply Protection**

Online double-conversion UPS provides reliable power supply protection and effectively resists risk of sudden power cut.

- **Environmental Protection**

Stable temperature, humidity of IT environment provided by our various types of precision cooling, ensure your business continuous operation.

- **Real-time Monitoring**

Smart monitoring system fully communicate with UPS, cooling, power, and all types of sensor, integration with access control system, provided real-time data at all times.

- **Enhanced Physical Protection**

IP55 rated cabinets equipped with Intelligent 3 in1 access control system can effectively prevent unauthorized entry including invasion, water and dust.

- **Disaster Protection**

Early fire detection system and Fire system combined with graphics processing technology to maximize the protection of your equipment from loss at the early stage of disaster.

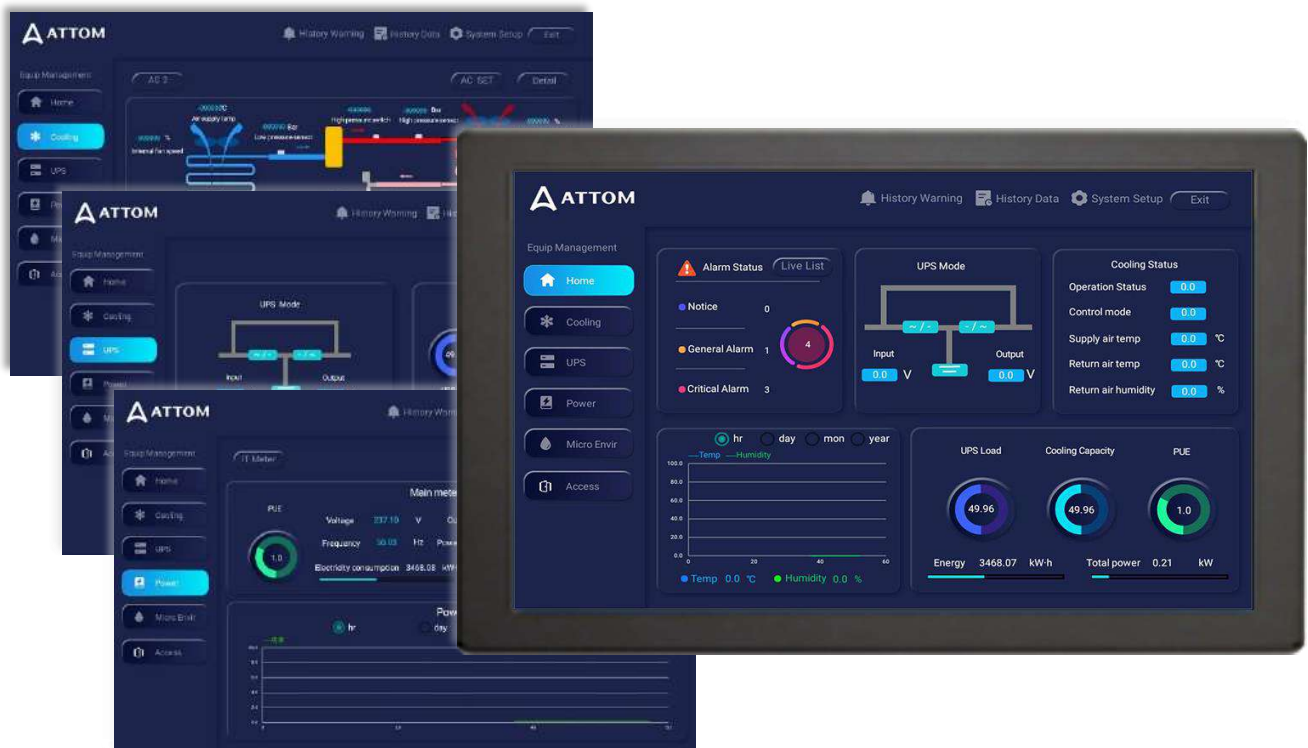

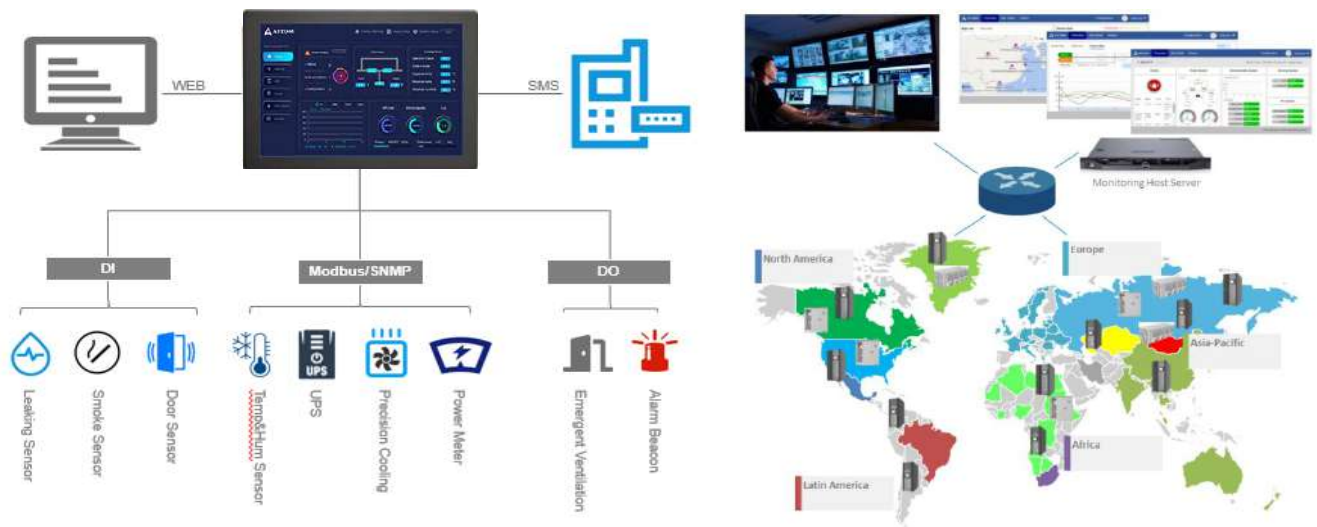

Efficiency Prefabricated

# AgileRax™ - v2.0 | Micro Data Center Solutions

The smart monitoring, your instant insights.

Smart monitoring system provide more user-friendly interface, comprehensive local monitoring, and supports various protocols for easy integration with your existing BMS system. It allows for remote centralized management and constant monitoring of device status, ensuring the business continuous operation.

Efficiency Prefabricated

# AgileRax™ - v2.0 | Micro Data Center Solutions

All types of Configurations, define by yourself.

All kinds of key design aspects, including IT-Rack, precision cooling, UPS, PDU, Battery, Fire system, Monitoring system, it can be configured by yourself. Including but not limited to capacity configuration, redundancy configuration, software modifications, etc.

### Various Types Cooling

- 2.5-5.5kW Top mount cooling system
- 3.9-12kW Rack mount cooling system
- 5.6-10.8kW Inrow packaged cooling system
- 5.6-90kW Inrow split cooling system

### IP55 Rack

Two different widths(600/800mm) and three different heights(24U,33U and 42U)

### Rack Mount / Modular UPS

- 3kVA~60kVA rack UPS
- 60-200kVA modular UPS rack mount
- 250-600kVA modular UPS floor mount

### 48VDC Modular Rectifier

60A~1200A 48VDC rectifier, with rectifier module / Solar module

### VRLA / Lithium Batteries

Compact size in-rack design. High performance, high efficiency

### Basic / Smart PDU

Max 42bits / 63A input current, With environmental monitoring, power monitoring, control, management, lightning protection and other functions

### Additional Options

Video Surveillance System

Rack mount fire System

Early Fire Detection System

Efficiency Prefabricated

# AgileRax™ - v2.0 | Micro Data Center Solutions

The flexibility, matching your future precisely.

AgileRax™ solutions enable individually scalable combinations of all components like IT racks, cooling, power distribution, monitoring and security. flexible and highly standardized concepts can offer the best individual solution for every customer at any stage of the business. You can plan and invest your IT assets step by step while your business grows.

Various predefined configurations, suitable for any of your application.

## MDC with Top Package Cooling

3k – 6k MDC fully integrated with closed rack, package cooling, UPS, battery, power distribution, security, monitoring and fire systems.

No complex piping of remote condenser installation.

## MDC with Row Package Cooling

5k – 10k MDC fully integrated with closed rack, package cooling, UPS, battery, power distribution, security, monitoring and fire systems.

No complex piping of remote condenser installation.

## MDC with Rack Split/Package Cooling

3k – 10k MDC fully integrated with closed rack, rack mount cooling, UPS, battery, power distribution, security, monitoring and fire systems.

Modular rack cooling flexible for rack oriented MDC plan, expansion and deployment.

## MDC with Row Split Cooling

6k – 20k MDC fully integrated with closed rack, split cooling, UPS, battery, power distribution, security, monitoring and fire systems.

Row cooling seamless integration with rack row and capacity expansion.
